Portfolio Allocation

At the end of November, the GTAA portfolio decreased its exposure to risk assets from 50% to 10%.

During December, the strategy had a 10% allocation to U.S. equities, with the remainder of the portfolio 22.5% invested in long-term Treasuries and 68.5% invested in short-term investment grade corporate bonds.

In terms of performance attribution, our position in U.S. stocks rose 4.6%, our allocation to long-term Treasuries declined 2.0%, and our exposure to short-term investment grade corporate bonds rose 0.1%
