Forward-Looking Statements (“FLS”)

The Annual Management Report of Fund Performance may contain forward-looking statements. FLS means disclosure regarding possible events, conditions or results of operations that is based on assumptions about future economic conditions and courses of action and includes any future-oriented financial information (“FOFI”) with respect to prospective results of operations, financial position or cash flows that is presented either as a forecast or a projection. FOFI is FLS about prospective results of operations, financial position or cash flows, based on assumptions about future economic conditions and courses of action.

FLS can be identified by the use of forward-looking terminology such as “may”, “will”, “should”, “expect”, “anticipate”, “target”, “project”, “estimate”, “intend”, “continue” or “believe”, or the negatives thereof or other variations thereon or comparable terminology. Due to various risks and uncertainties, actual events or results or the actual performance of one of the Fund may differ materially from those reflected or contemplated in such forward-looking information and statements. Material risk factors that could affect actual results are identified under the heading “What are the Risks of Investing in the Fund?” in the Fund’s Simplified Prospectus. Investors are also cautioned that FLS is based on a number of factors and assumptions, including a Fund’s current plans, estimates, opinions and analysis made in light of its experience, current conditions and expectations of future developments, as well as other relevant factors. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.

MANAGEMENT REPORT OF FUND PERFORMANCE

(Expressed in Canadian dollars)

Management Discussion of Fund Performance for the year ended December 31, 2024

This Annual Management Report of Fund Performance represents the portfolio management team's view of the significant factors and developments affecting the investment fund's performance and outlook for the year ended December 31, 2024, the investment fund's annual period. Every effort has been made to ensure the information contained in this Management Report of Fund Performance is accurate and complete, however, the investment fund cannot guarantee the accuracy or the completeness of this material. For more information, please refer to the Funds' Simplified Prospectus ("Prospectus"). In this report, "Manager", refers to Outcome Metric Asset Management Limited Partnership., the Manager of the Fund. The "Fund" refers to the Outcome Canadian Equity Income Fund. In addition, "net asset value" or "NAV" refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based. All dollar figures are reported in Canadian dollars and are expressed in millions, unless otherwise indicated.

Investment Objective and Strategies

The Fund's investment objective is to provide a higher yield than the TSX Composite Index while maximizing total investment return and attempting to preserve capital during bear markets through diversification across a broad range of securities. The fund intends to achieve its investment objective by investing in dividend paying securities listed on the Toronto Stock Exchange.

The Manager uses a 100% systematic, algorithmically driven, rules-based process to construct the portfolio. The TSX is screened for equity securities that have stable and growing dividend payments, must not have cut their dividends in the past five years and have increased dividends in at least three of the past five years. The remaining stocks are then weighted according to a nonlinear ratio of their respective dividend yields to their respective volatilities. Individual stocks are capped at 5% and sector weights are capped at 25% of NAV at the time of investment. The portfolio is rebalanced on a semi-annual basis and, to the extent available, pays quarterly distributions. The Manager will not invest the Fund's portfolio in foreign securities unless such securities are listed for trading on the TSX. No more than 10% of NAV will be invested in foreign securities.

Risk

The risks associated with investing in the Fund remain as discussed in the simplified Prospectus. The Fund is suitable for investors looking for a medium level of risk that is based on a research-driven, concentrated portfolio of Canadian Companies with a medium to longer term investment horizon.

For the year ended December 31, 2024, there were no changes affecting the overall level of risk associated with an investment in the Fund. Therefore, the overall level of Fund risk and investor risk tolerance remains as stated in the Prospectus.

Results of Operations

From January 1, 2024, to December 31, 2024, the Fund's net assets increased from \$42.7 million to \$100.3 million. The Fund had net sales of \$49.3 million during the period, consisting of \$70.3 million in subscriptions and \$21.0 million in redemptions, with performance increasing assets by \$8.7 million. The Fund paid distributions totaling \$1.1 million, with \$0.81 million reinvested.

During the first half of the year, the largest positive contributors to Fund performance were CCL Industries Inc., which rose 21.7%, Agnico Eagle Mines Limited, which rose 24.7%, and George Weston Limited, which rose 20.6%. The largest detractors from performance were Open Text Corporation, which declined 25%, BCE Inc., which declined 11.2%, and Cogeco Communications Inc., which declined 10.2%.

In terms of sectors, the largest positive contributors were the materials and consumer staples sectors, while the sectors which most detracted from the portfolio's returns were the communications services and information technology sectors.

MANAGEMENT REPORT OF FUND PERFORMANCE

(Expressed in Canadian dollars)

Management Discussion of Fund Performance for the year ended December 31, 2024

During the second half of the year, the largest positive contributors to Fund performance were TransAlta Corporation, which rose 110.8%, Empire Co Ltd Class A, which rose 26.7%, and Agnico Eagle Mines Limited, which rose 26.9%. The largest detractors from performance were Saputo Inc., which declined 17.4%, Parkland Corporation, which declined 13.4%, and Cargojet Inc., which declined 22.5%.

In terms of sectors, the largest positive contributors were the utilities and financials sectors, while there were no sectors that had a materially negative impact on portfolio performance.

Recent Developments

The Fund's portfolio was rebalanced at the end of December in accordance with its stated algorithmically driven, rules-based investment process.

Significant additions to the portfolio include Alamos Gold Inc., Waste Connections Inc., and Wheaton Precious Metals Corp.

With respect to increases in preexisting positions, the largest increases were accorded to Capital Power Corporation, BCE Inc., and Parex Resources Inc.

Material positions were eliminated in Agnico Eagle Mines Limited, Parkland Corporation, and Osisko Gold Royalties Ltd.

With respect to decreases in preexisting positions, the largest reductions include Fortis, Inc., Quebecor Inc., and Open Text Corporation.

From a sector exposure perspective, the portfolio's weighting in industrials experienced the largest increase, while its exposures to utilities, consumer staples, and financials experienced the largest decreases.

The changes to the portfolio resulted in an increase in portfolio risk/beta (using 5-year betas) from 0.80 to 0.79.

Notes:

- (1) This information is derived from the Fund's annual financial statements for December 31, 2024 and December 31, 2023 and is not a reconciliation of beginning and ending net assets per unit.
- (2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase from operations is based on the weighted average number of units outstanding over the financial year.
- (3) Distributions were paid in cash or automatically reinvested in additional units of the Fund, or both.
- (4) This information is provided as at December 31, of the year shown, as applicable.
- (5) Management expense ratio is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) for the stated year and is expressed as an annualized percentage of daily average NAV during the year.
- (6) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average NAV during the year. Included in the trading expense ratio are the forward fees.
- (7) The Fund's portfolio turnover rate indicates how actively the Fund's advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the units in its portfolio once in the course of the year. The higher a funds' portfolio turnover rate in the year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.
