Management expense ratio (MER):	MER is not available as it is a new class of the Fund	Minimum Investment:	\$1,000 initial, \$100 each subsequent

WHAT DOES THE FUND INVEST IN?

The Fund’s investment objective is to provide a higher yield than the TSX Composite Index while maximizing total investment return and attempting to preserve capital during bear markets through diversification across a broad range of securities. The portfolio will generally be comprised of equity securities listed on the TSX. The Fund may hold foreign securities that are listed on the TSX. No more than 10% of NAV will be invested in foreign securities. Assets of the Fund may also be held in cash to the extent that economic, market, or other conditions make it appropriate. The Manager uses a 100% systematic, algorithmically driven, rules-based process to construct the portfolio. The TSX is screened for equity securities that have stable and growing dividend payments, must not have cut their dividends in the past five years and have increased dividends in at least three of the past five years. The remaining stocks are then weighted according to a nonlinear ratio of their respective dividend yields to their respective volatilities.

The charts below provide a snapshot of the Fund’s investments on April 30, 2026. The Fund’s investments will change.

Top 10 Investments (April 30, 2026)	% of Fund Value	Investment Mix - Geography (April 30, 2026)	% Weight

Canadian Utilities Ltd. Class A	3.90		
Total percentage of top 10 investments	47.87%	Cash and Other	0.18%
Total number of investments:	39	Total percentage of investment mix	100%

HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money. One way to gauge risk is to look at how much a fund’s returns change over time. This is called “volatility”.

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

RISK RATING

Low	Low to Medium	Medium	Medium to High	High
-----	---------------	--------	----------------	------

Outcome Metric Asset Management Limited Partnership has rated the volatility of this Fund as **medium**.

This rating is based on how much the Fund’s returns have changed from year to year. It doesn’t tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money

For more information about the risk rating and specific risks that can affect the Fund’s returns, see the section “What are the Risks of Investing in the Fund” in the Fund’s simplified prospectus.

NO GUARANTEES

Like most mutual funds, this Fund does not have any guarantees. You may not get back the amount of money you invest.

HOW HAS THE FUND PERFORMED?

This section tells you how the Class A1 units of the Fund have performed. However, this information is not available because this class is new.

YEAR-BY-YEAR RETURNS

This section tells you how the Class A1 units of the Fund have performed in past calendar years. However, this information is not available because this class is new.

BEST AND WORST 3 MONTH RETURNS

This section shows the best and worst returns for Class A1 units of the Fund in a 3- month period. However, this information is not available because this class is new.

AVERAGE RETURN

This section shows the value and annual compounded rate of return of a hypothetical \$1,000 investment in Class A1 units of the Fund. However, this information is not available because this class is new.

WHO IS THIS FUND FOR?

For investors who have a low to medium risk tolerance, seek income and want to protect against large losses during market downturns using data driven strategies to allocate funds accordingly.

A WORD ABOUT TAX

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on tax laws where you live and whether or not you hold the Fund in a registered plan, such as a Registered Retirement Savings Plan, or a Tax-Free Savings Account.

Keep in mind that if you hold the Fund in a non-registered account, Fund distributions are included in your taxable income, whether or not they are received in cash or reinvested in additional units of the Fund.

HOW MUCH DOES IT COST?

The following table shows the fees and expenses you could pay to buy, own and sell Class A1 units of the Fund. The fees and expenses – including any commissions – can vary among classes of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales Charges

There is only one sales charge option when you buy Class A1 units of the Fund.

Sales charge option	What you pay		How it works
	in percent (%)	in dollars (\$)	
Front end sales charge	0.0% - 5.0% of the purchase price of the units you buy	You will pay a fee of \$0 - \$50 on every \$1,000 you invest	<ul style="list-style-type: none"> This fee is negotiated by you with, and paid to, your representative's firm at the time of purchase to a maximum of 5.0% and is deducted from the amount paid at the time of purchase. Outcome Metric Asset Management Limited Partnership does not receive any of this amount - it goes directly to your representative's firm.

2. Fund Expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns.

The fund's expenses are made up of the management fee, operating expenses and trading costs. Class A1 annual management fee is 1.75% of the Class A1 value. Because this class is new, its operating expenses and trading costs are not yet available.

3. More About the Trailing Commission

The trailing commission is an ongoing commission. It is paid for as long as you own Class A1 units of the Fund. It is for the services and advice that your representative and their firm provide to you.

Outcome Metric Asset Management Limited Partnership pays the trailing commission to your representative's firm. It is paid from the Fund's management fee and is based on the value of your investment.

Outcome Metric Asset Management Limited Partnership will pay a trailing commission to your representative's firm of 1.0% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

4. Other Fees

You may have to pay other fees when you buy, hold, sell or switch units of the Fund.

Fee	What you pay
Short Term Trading Fee	The Manager reserves the right to charge a fee of up to 1.5% of the net asset value of units.
Administrative Fee	\$30 if your purchase cheque is returned because of insufficient funds.

You may be responsible for other fees payable to your dealer if you hold your units through a fee-based arrangement with your dealer.

WHAT IF I CHANGE MY MIND?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document; or
- cancel your purchase within 48 hours after receiving confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory, or ask a lawyer.

FOR MORE INFORMATION
