Forward-Looking Statements (“FLS”)

The Annual Management Report of Fund Performance may contain forward-looking statements. FLS means disclosure regarding possible events, conditions or results of operations that is based on assumptions about future economic conditions and courses of action and includes any future-oriented financial information (“FOFI”) with respect to prospective results of operations, financial position or cash flows that is presented either as a forecast or a projection. FOFI is FLS about prospective results of operations, financial position or cash flows, based on assumptions about future economic conditions and courses of action.

FLS can be identified by the use of forward-looking terminology such as “may”, “will”, “should”, “expect”, “anticipate”, “target”, “project”, “estimate”, “intend”, “continue” or “believe”, or the negatives thereof or other variations thereon or comparable terminology. Due to various risks and uncertainties, actual events or results or the actual performance of one of the Fund may differ materially from those reflected or contemplated in such forward-looking information and statements. Material risk factors that could affect actual results are identified under the heading “What are the Risks of Investing in the Fund?” in the Fund’s Simplified Prospectus. Investors are also cautioned that FLS is based on a number of factors and assumptions, including a Fund’s current plans, estimates, opinions and analysis made in light of its experience, current conditions and expectations of future developments, as well as other relevant factors. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.

OUTCOME TACTICAL BOND FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

(Expressed in Canadian dollars)

Management Discussion of Fund Performance for the period from commencement of operations on May 1, 2025 to December 31, 2025

This Annual Management Report of Fund Performance represents the portfolio management team's view of the significant factors and developments affecting the investment fund's performance and outlook for the period from commencement of operations on May 1, 2025 to December 31, 2025, the investment fund's annual period. Every effort has been made to ensure the information contained in this Management Report of Fund Performance is accurate and complete, however, the investment fund cannot guarantee the accuracy or the completeness of this material. For more information, please refer to the Fund's Simplified Prospectus ("Prospectus"). In this report, "Manager", refers to Outcome Metric Asset Management Limited Partnership, the Manager of the Fund. The "Fund" refers to the Outcome Canadian Equity Income Fund. In addition, "net asset value" or "NAV" refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based. All dollar figures are reported in Canadian dollars and are expressed in millions, unless otherwise indicated.

Investment Objective and Strategies

The Fund's investment objective is to maximize the total investment return of the Fund through diversification across a broad range of fixed income exchange traded funds ("ETF") while attempting to preserve capital during bear markets. The Fund intends to achieve its investment objective by investing in fixed-income based ETF securities listed on the NYSE, representing including without limitation short and long duration U.S. Treasury major asset classes, bonds, U.S. T-Bills, short and long duration U.S. investment grade corporate bonds, U.S. high yield bonds and dollar-denominated emerging market sovereign bonds. Further, the Fund may use currency futures exclusively for hedging purposes.

The Manager uses a 100% systematic, algorithmically driven, rules-based process to construct the portfolio. The TSX is screened for equity securities that have stable and growing dividend payments, must not have cut their dividends in the past five years and have increased dividends in at least three of the past five years. The remaining stocks are then weighted according to a nonlinear ratio of their respective dividend yields to their respective volatilities. Individual stocks are capped at 5% and sector weights are capped at 25% of NAV at the time of investment. The portfolio is rebalanced on a semi-annual basis and, to the extent available, pays quarterly distributions. The Manager will not invest the Fund's portfolio in foreign securities unless such securities are listed for trading on the TSX. No more than 10% of NAV will be invested in foreign securities.

Risk

The risks associated with investing in the Fund remain as discussed in the simplified Prospectus. The Fund is suitable for investors looking for a medium level of risk that is based on a research-driven, concentrated portfolio of Canadian Companies with a medium to longer term investment horizon.

For the period from commencement of operations on May 1, 2025 to December 31, 2025, there were no changes affecting the overall level of risk associated with an investment in the Fund. Therefore, the overall level of Fund risk and investor risk tolerance remains as stated in the Prospectus.

Results of Operations

From May 1, 2025 to December 31, 2025, the Fund's net assets increased from \$0.00 million to \$48.1 million. The Fund had net sales of \$48.9 million during the period, consisting of \$50.5 million in subscriptions and \$1.6 million in redemptions, with performance decreasing assets by \$0.55 million. The Fund paid distributions totaling \$0.86 million, with \$0.68 million reinvested.

During the period, the largest positive contributors to Fund performance were high yield bonds and dollar-denominated emerging market sovereign bonds. The largest detractors from performance were long-term Treasuries and medium-term investment grade corporate bonds.

OUTCOME TACTICAL BOND FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

(Expressed in Canadian dollars)

Management Discussion of Fund Performance for the period from commencement of operations on May 1, 2025 to December 31, 2025

Recent Developments

At the beginning of the period, the Fund was conservatively positioned with relatively lower duration and credit exposure. Specifically, the Fund has 33.3% positions in each of short-term Treasuries, short-term investment grade corporate bonds, and high yield bonds.

As the period progressed, the Fund increased both its duration and credit exposures. As of December 31, 2025, the portfolio was one-third positioned in each of medium-term investment grade corporate bonds, high yield bonds, and dollar-denominated emerging market sovereign bonds.

Related Party Transactions

Management fees:

The Fund pays the Manager a monthly management fee for providing their services to the Fund, including activities related to making units of the Fund available to investors, providing, or arranging for the provision of, investment advisory services, marketing services, office overhead expenses and trailing commissions. Redeemable units of the class are charged annual management fees equal to the percentages of the class NAV of the said class of the Fund, calculated and accrued on each Valuation Date and payable monthly in arrears as of the last business day of each month.

The below table shows a breakdown of the annual management fee (before taxes) as a percentage of the management fees collected.

	2025
Class A	1.00%
Class A - US	1.00%
Class F	0.50%
Class F - US	0.50%

Expense Reimbursement:

During the period from commencement of operations on May 1, 2025 to December 31, 2025, the Manager has absorbed \$43,734 of the Fund's expenses and \$8,807 are receivable from the Manager in respect of expense reimbursements, as at December 31, 2025.

As at December 31, 2025, in addition to the reimbursement receivable \$nil, is due from the Manager in respect of expense payments.

Notes:

- (1) This information is derived from the Fund's annual financial statements for December 31, 2025 and is not a reconciliation of beginning and ending net assets per unit.
- (2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase from operations is based on the weighted average number of units outstanding over the financial period.
- (3) Distributions were paid in cash or automatically reinvested in additional units of the Fund, or both.
- (4) This information is provided as at December 31, of the period shown, as applicable.
- (5) Management expense ratio is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) for the stated year and is expressed as an annualized percentage of daily average NAV during the year.
- (6) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average NAV during the year. Included in the trading expense ratio are the forward fees.
- (7) The fund expense ratio represents total fund expenses expressed as an annualized percentage of daily average NAV during the period. It is the sum of the management expense ratio and the trading expense ratio, inclusive of performance fees and net of any fee waivers, rebates or absorptions.
- (8) The Fund's portfolio turnover rate indicates how actively the Fund's advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the units in its portfolio once in the course of the period. The higher a funds' portfolio turnover rate in the year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.
